PROMOTING WORLD-CLASS SOFTWARE DEVELOPMENT IN THE **TORONTO** AREA

---

# TORONTO

SOFTWARE PROCESS IMPROVEMENT NETWORK

---

Join the Toronto SPIN for an informative, interactive, and entertaining afternoon designed to make you think and communicate

**May 20<sup>th</sup> 1999 1PM**

Elizabeth Beaton Room, Metro Reference Library, 781 Yonge St.

*Registration is Free*

## **2000 Watt – Food 4 Thought**

*The Lighter Side of High Technology and Popular Culture*

**Pete Gacuk P.Eng. ~ Agent of Change**

Engineering, Information Technology, Software, Process Improvement, Quality, ...

Nothing is sacred in this multimedia presentation as we count down to Y2K.

Pete is an agent of technology transfer, process improvement, and culture change. He has participated in and managed systems and software projects in the Telecommunications, Space, Industrial Controls, and Defense industries. Pete can be reached at [pgacuk@netcom.ca](mailto:pgacuk@netcom.ca)

## **So What's the Truth?**

*Getting the Lowdown on How your Project is REALLY Doing*

**Davender Gupta M.S., P.Eng. ~ Visioneer**

Finding out what's really happening with your software project is challenging: pressures to meet schedule, unclear requirements & design, shifting priorities & targets, politics and corporate culture. Open communication takes time and effort to cultivate, and it's essential for all levels of the software development team.

Davender works with technology teams to encourage open communication and trust, as the fundamental step for fostering innovation, process improvement, and success in turbulent times. He can be reached at [davender@visioneering.ca](mailto:davender@visioneering.ca) [www.visioneering.ca](http://www.visioneering.ca)

**~ Our popular Snapshots Sessions are back ~**
